Since 1996

Thoughtful Kitchen, Bath & Water
Solutions for Modern Home Creators

ORIGINAL DESIGN · PREMIUM QUALITY · BUILT TO LAST

KES

Who We Are

KES creates thoughtful, metal-first kitchen, bath and water solutions for homeowners and professionals who expect products to look refined, work naturally and stand up to everyday use.

Built on manufacturing roots that began in 1996, KES brings together honest materials, original design, disciplined quality control and responsive human support. Since launching the KES brand in 2012, we have served more than 15 million homeowners across major global markets.

- **Metal First. No Plastic Shortcuts**
- **Keeping Everything Seamless**

practical products for everyday living.

Across China, the United States,
the European Union and the United Kingdom.

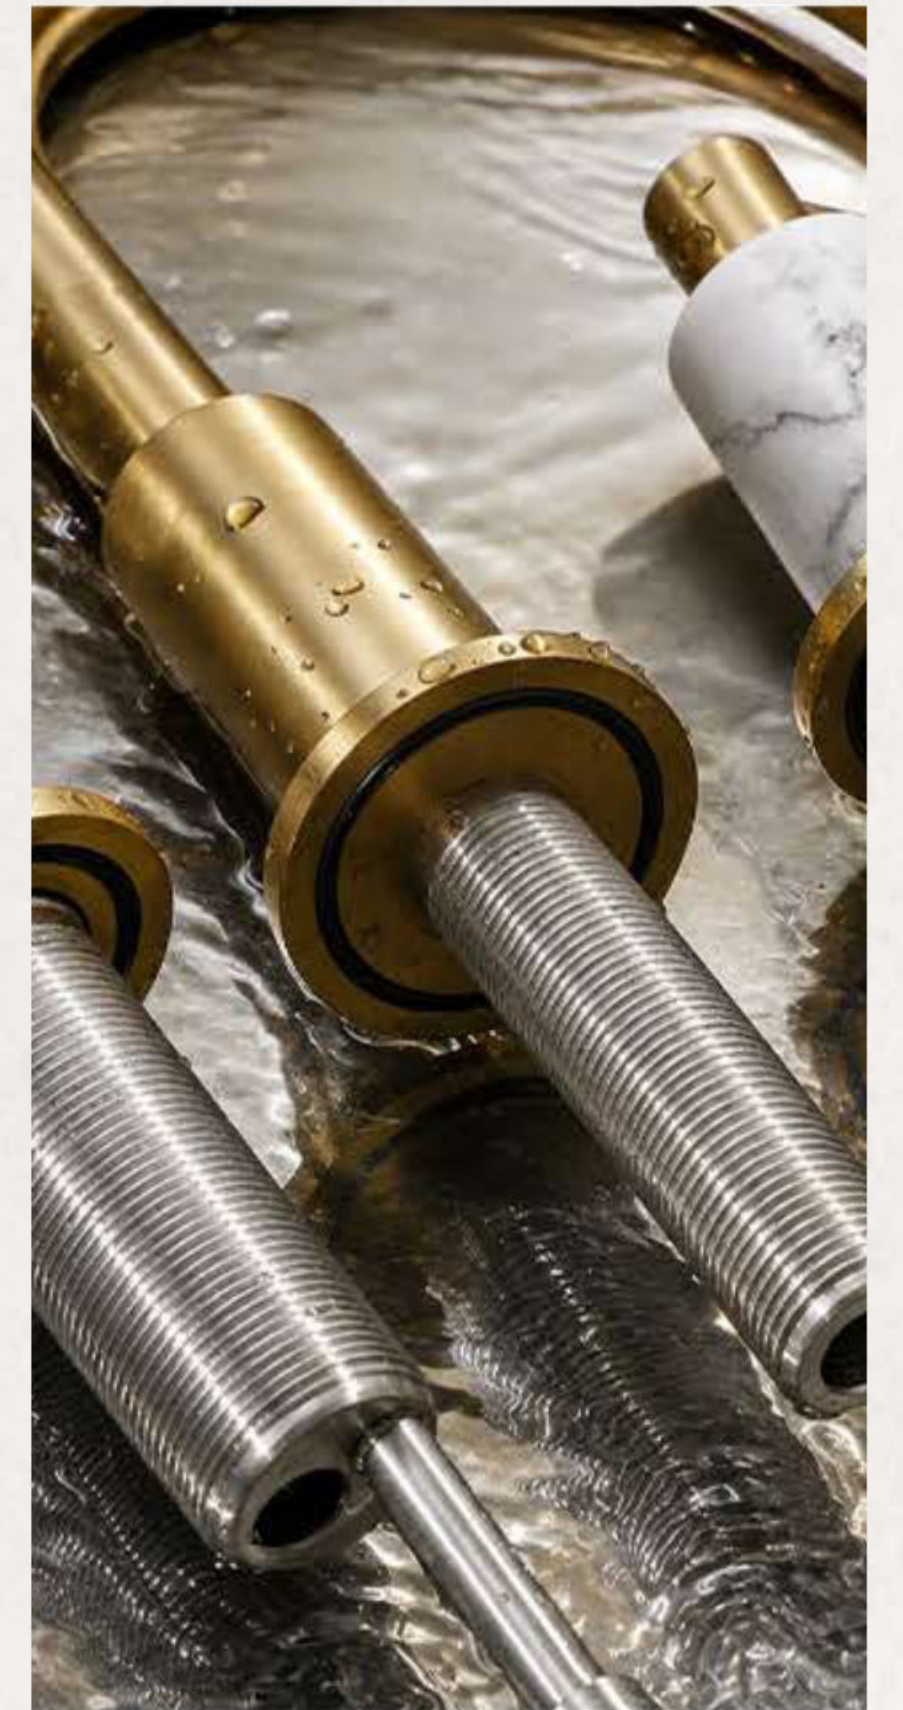

KES

Metal-First Engineering

Metal First. No Plastic Shortcuts.

In critical flow paths, load-bearing structures and other areas where strength and durability are essential, KES prioritizes metal construction rather than using hidden plastic as a cost-reduction shortcut.

High-performance polymers are used deliberately where sealing, insulation or specific functional performance requires them.

KES

Quality Control

Quality is built into every stage—from materials and manufacturing to testing, inspection and delivery.

20+

Dedicated Test Rigs

In-house quality-assurance laboratory

KES

Product Compliance

Selected KES products are tested and listed to applicable plumbing, drinking-water and energy-efficiency requirements.

NSF

Certifications and compliance listings apply to specific products and models.
Supporting documentation is available upon request.

Built on Manufacturing. Created for Better Living.

1996

Manufacturing Roots

Our story began with precision manufacturing, metalworking and quality control for global OEM customers.

2012

The KES Brand Launches

KES was created to bring our manufacturing experience directly to homeowners and professionals.

Today

Integrated Home Solutions

Original design, metal-first engineering and disciplined quality control across kitchen, bath and water solutions.

BRAND BELIEF

Making Everyday Living Effortlessly Simple

Mission

Craft seamless, metal-first kitchen and bath solutions built around enduring quality, honest materials and thoughtful design.

Vision

To become a trusted standard for effortless, sustainable living through durable metal innovation.

Purposeful Functionality
Solve real problems.

Precision Craftsmanship
Engineer with discipline.

Essential Simplicity
Remove the unnecessary.

SUPPORT & EXPERIENCE
